

## BOOK SKY

# How To Install CS-Cart Template

Rules For Installing CS-CART Template which was given by step below.

**For Installing a CS-Cart\_v4.14.1.SP1 Booksky theme you must:**

- By Initially must Backup all the files and database of your site. Do not forget always make a backup of your store before any changes! It does not matter if the changes are small or big and if they are concerns database or not.
- Unpack the template package to your local computer.

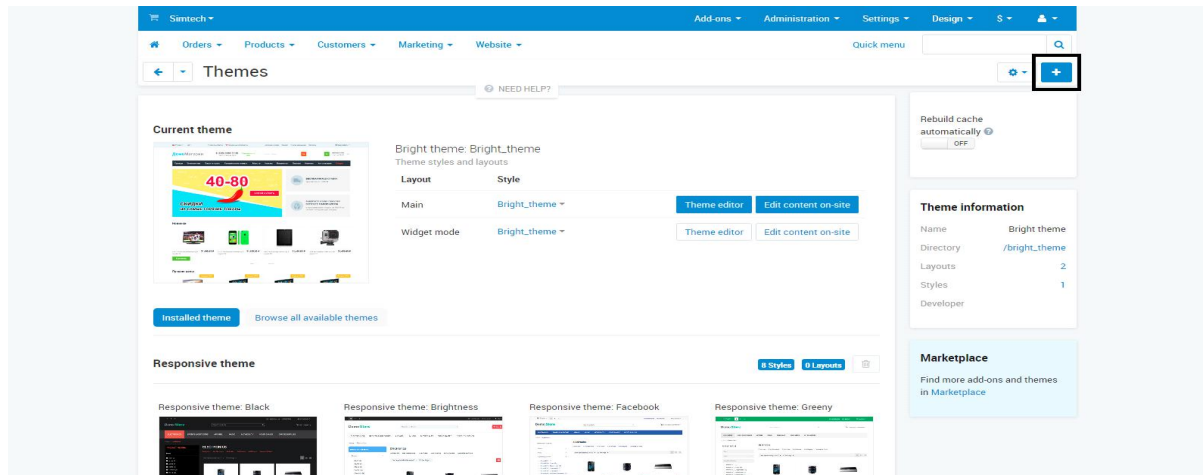

### Step 1: For Installing the theme

By following these two ways you can install our **Cs-cart** theme and use any one **Method**.

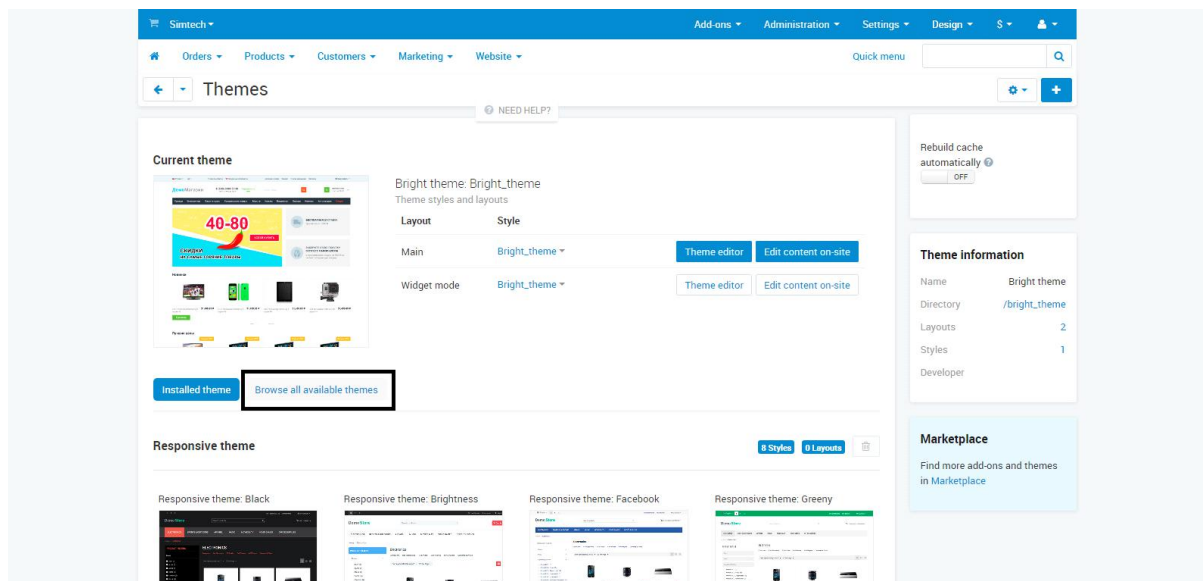

#### ***Method 1:(Using Admin Panel only)***

- Please unzip our over all theme package "booksky.zip"
- After unzip the file ,you can find these there files as follows.
  - **v4.14.1.sp1**
  - **booksky\_layouts.xml**
  - **How To Install.docx**
- Among these there files Go to our theme path "v.4.14.4.sp1  
sp1\var\themes\_repository"., Select our original theme folder "booksky\_theme"
- Again please zip the "booksky\_theme" folder
- Please upload this zip folder "**booksky\_theme.zip**" using following steps

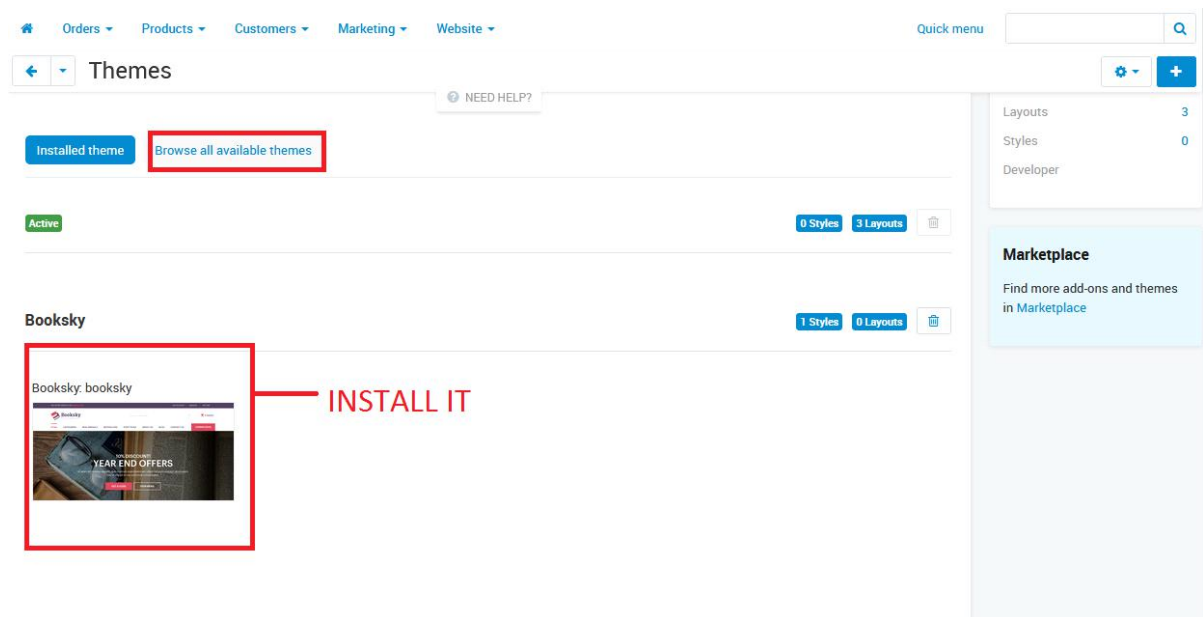

- **In Admin panel ,**
  1. Go to the “Design” -> “Themes” page,
  2. Please click **plus** icon, show upload theme popup,

1. Please upload the our theme **booksky\_theme.zip** zip package .
2. Click **Browse all Available Themes** tab.

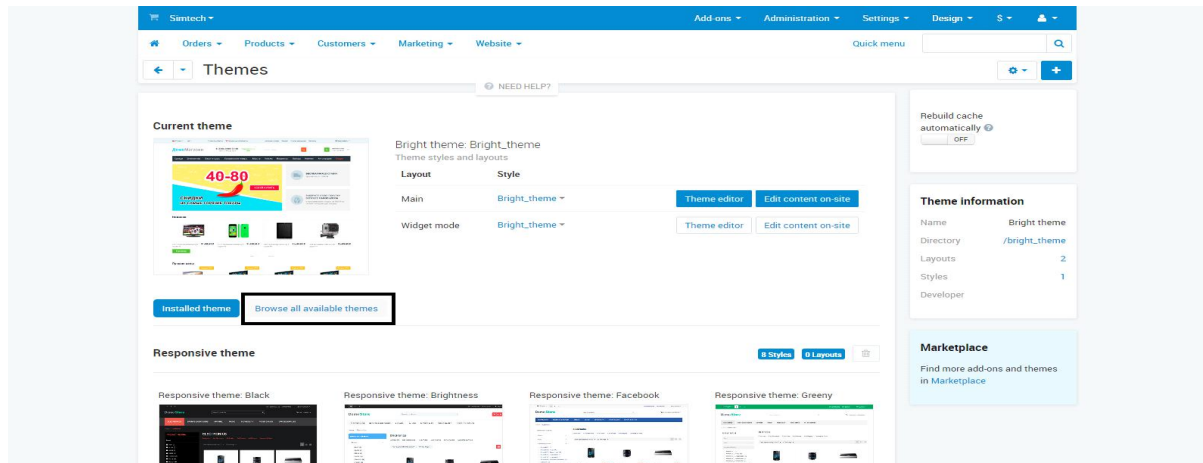

1. Click to the **Install** theme.

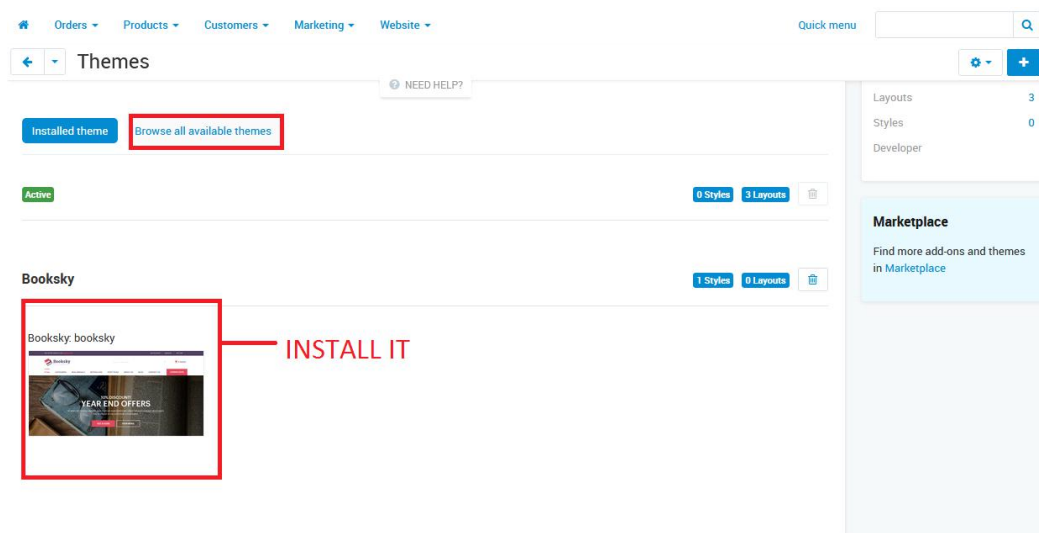

- **Method 2:(Using FTP and Admin Panel )**

- Upload the theme files and folders “**booksky\_theme**” to the var/theme\_repository directory of your CS-Cart installation.
- Log in to the **Admin** area.
- Go to the “**Design**” -> “**Themes**” page,
- Click **Browse all Available Theme** tab.

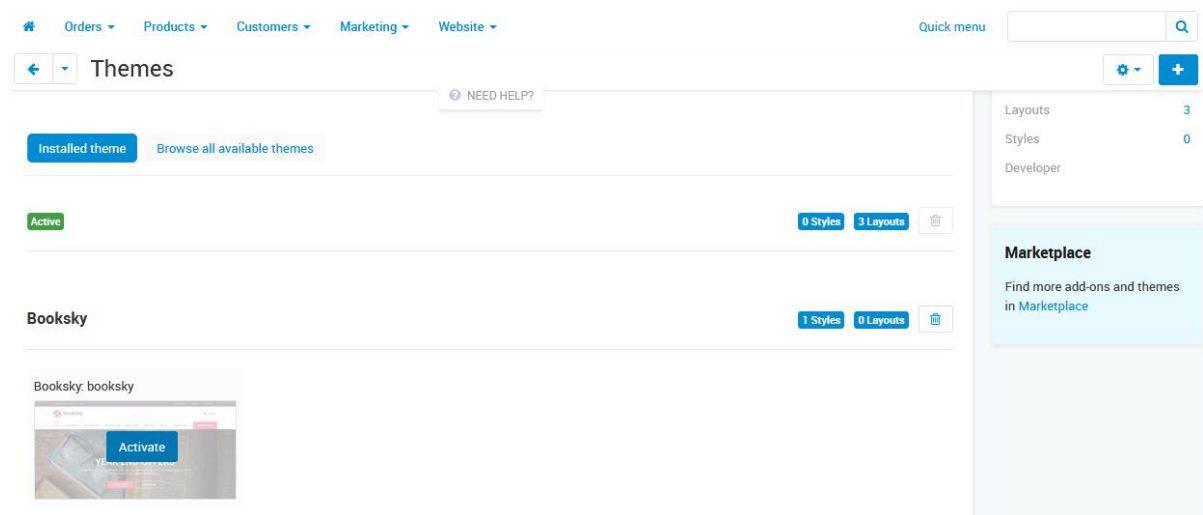

- Click to the install theme.

## ***Activate The Installed Theme***

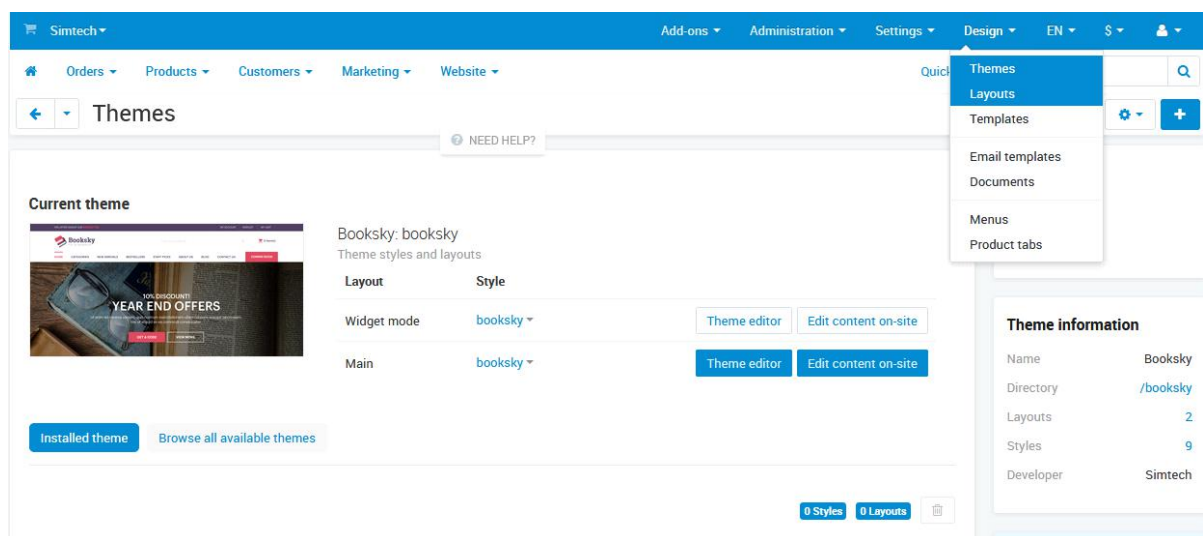

- Go to **Installed Theme** tab, Select our **Theme** and active it.

After the theme activation Layouts settings must be DONE.

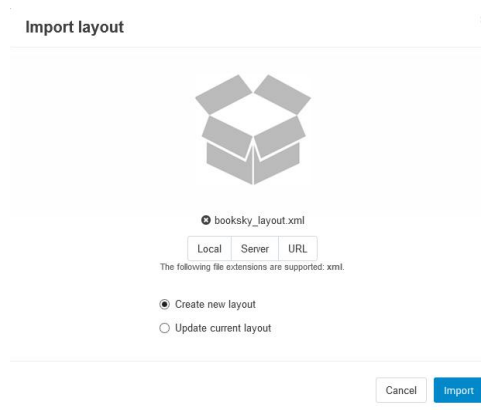

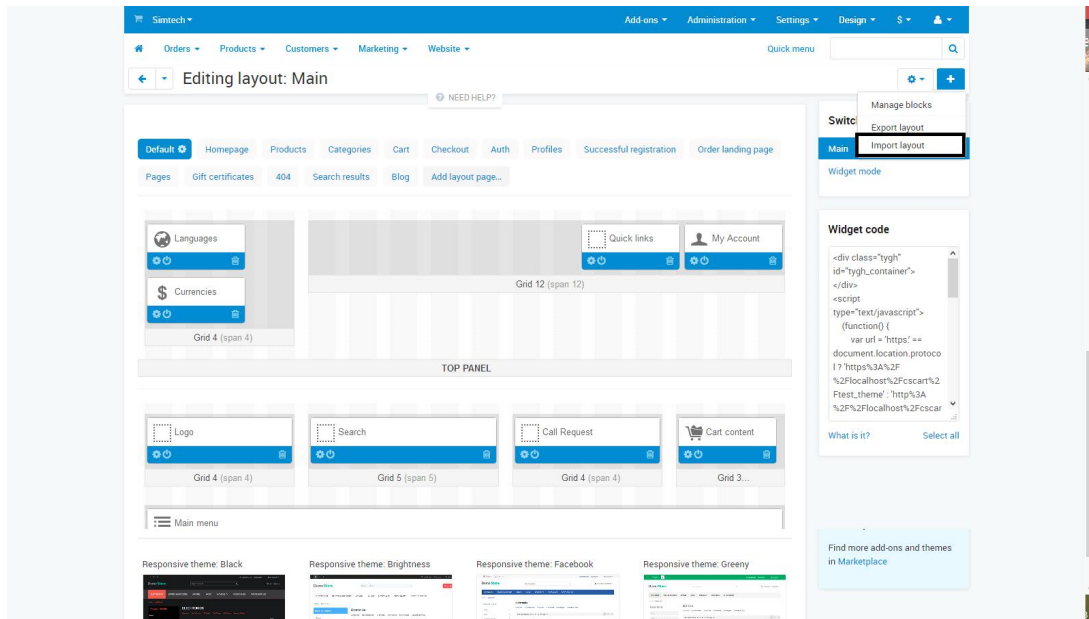

## Step 2: Importing Layout

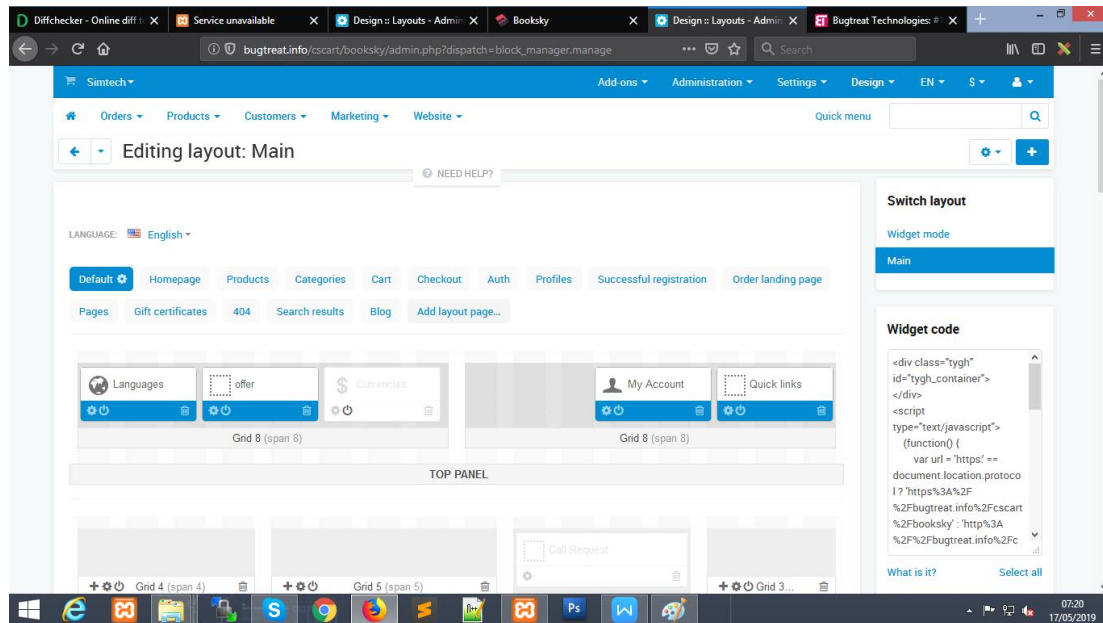

- Go to Admin -> Design -> Layouts

- Please click the “Import location” button and locate the (.XML) file provided in our template package

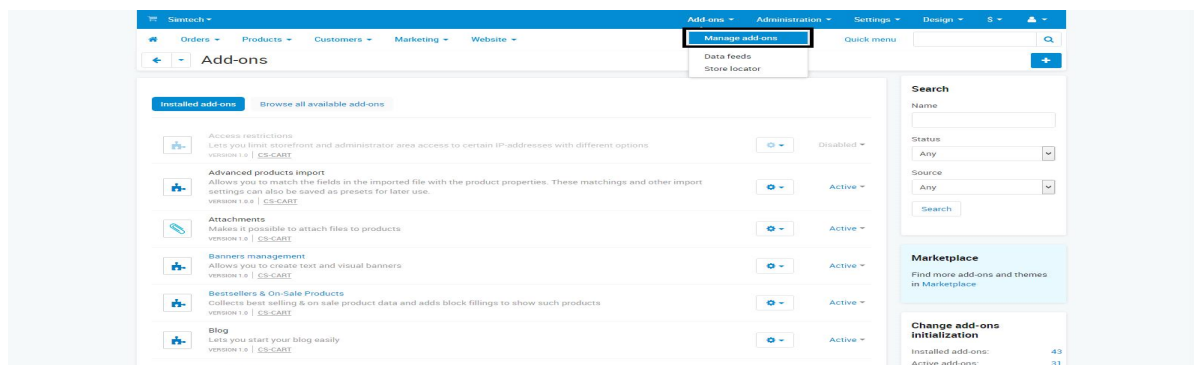

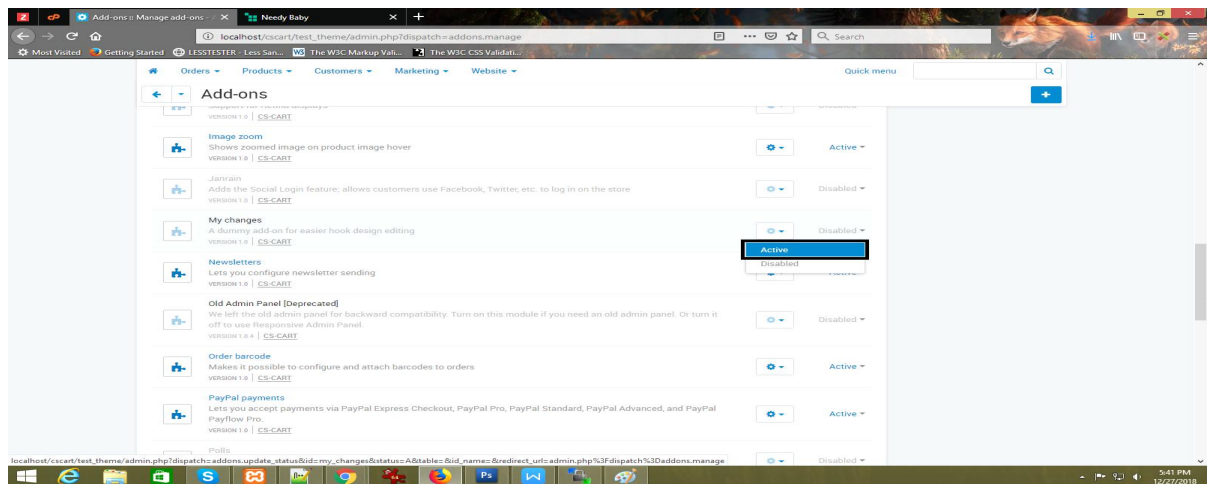

- And click Import button.
- Then Go to Layout List Click and Active The Layout
